## FEATURES

### TFT Colour Instrumentation with Smartphone Connectivity

The compact new 4.3" all-digital TFT colour instrumentation gives the cockpit a high-tech, highgrade appearance. The new meter also offers additional features unavailable on the previous model, including smartphone connectivity.

### Latest Versys Family Styling

Redesigned upper cowl inspired by the Versys 1000 and a new windshield bring the Versys 650 in line with latest Versys family styling.

### Slim, Upright Riding Position

Slim, upright position and wide handlebars offer a naturally relaxed posture and high controllability

## KTRC (Kawasaki TRaction Control)

Kawasaki's advanced traction control system provides both enhanced sport riding performance and the peace of mind under certain conditions to negotiate low-traction surfaces with confidence. Two modes allow riders to adjust settings to suit the riding situation and rider preference.

## USB Outlet (Accessory)

Complementing the accessory DC outlet, a new accessory USB outlet features dual-covers for high water resistance. Both power sources can be built into the cockpit's inner cover, where they would be ideally positioned for charging accessories or personal items.
